

# DSBS/DSTS half-day meeting on communication and interpretation of statistical evidence November 15, 2018

**Venue: University of Copenhagen  
Aud A2-70.04 (3-14)  
Thorvaldsensvej 40, Frederiksberg**

**The event aims at facilitating discussions among statisticians on communicating potential harms and benefits of interventions as well as use and mis-use of statistical evidence**

We have two contributions to introduce the topic, followed by a panel discussion:

## Agenda:

<b>8:30-9:00</b>	Coffee/Tea and Croissants
<b>9:00-9:45</b>	<b>David Spiegelhalter</b> , Professor at Statistical Laboratory, University of Cambridge: <i>Risk stories from the Media. With pharmaceutical examples</i>
<b>9:45-10:30</b>	<b>Kristian Windfeld</b> , Director of Biostatistics, Genmab a/s: <i>P-values - do we really understand them?</i>
<b>10:30-10:45</b>	Bio-Break
<b>10:45-11:30</b>	Panel discussion with David Spiegelhalter, Kristian Windfeld, Niels Richard Hansen, Claus Thorn Ekstrøm, Jesper Madsen and Birgitte Rønn, moderated by Bo Markussen.
<b>11:30-12:00</b>	Sandwiches and water to-go

We look very much forward to lively discussions!

## Registration

Deadline for registration: November 1<sup>st</sup>. The meeting is free, but when you register, please indicate if you will

1. join the scientific meeting
2. stay for a sandwich after the meeting, so that we will not waste food

To register, please send a mail to: [OPC\\_GCO@leo-pharma.com](mailto:OPC_GCO@leo-pharma.com)
