## Statistical Issues in Medical Statistics

### 4<sup>th</sup> joint workshop

27 April 2010, 10<sup>15</sup>–16<sup>30</sup>

Following the three previous workshops in 2004, 2006 and 2008, this upcoming meeting will feature talks on scientific areas that have the potential to be of great future importance for statistics in the pharmaceutical industry and health care sector: Bayesian statistics, new influenzas, stochastic differential equations, patient-reported outcomes, and outsourcing. A talk about the Medicon Valley will also be given.

**Programme with confirmed speakers and provisional titles:**
